MEMORANDUM FOR: Chairman, Intelligence Producers Council

FROM: Director of Central Intelligence

1. Thanks for your response to my request for concise information about what the council is doing, how well it is doing, and how it might do better. How do you think the new arrangements for a quarterly checkup on the value of the national intelligence topics is working? Has the process become any less sterile?

2. I have followed the work on the integrated damage assessment as it proceeded and look forward to an early briefing on the final assessment.

3. If there is any exchange of papers on external research analysis of various community elements and others with respect to research and production programs, I'd like to see what everybody is doing in this area.
